

Semantic Structure & Special Characters — Quick Reference

Landmark Tags (Layout)

- `<header>` — **logo/title + nav**
- `<nav>` — **block of navigation links**
- `<main>` — **primary content, one per page**
- `<section>` — **thematic group, own heading**
- `<article>` — **self-contained, stands alone**
- `<aside>` — **sidebar / related content**
- `<footer>` — **copyright / contact / links**

Semantic Skeleton

```
<header>
  <h1>...</h1>
  <nav><a href="#">...</a></nav>
</header>
<main>
  <article>...</article>
  <aside>...</aside>
</main>
<footer>...</footer>
```

Character Entities

- `<` → `<`
- `>` → `>`
- `&` → `&`
- `"` → `"`
- `©` → `©`
- `™` → `™`
- ` ` → **non-breaking space**
- `—` → **long dash**

General form: `&name;` or `&#number;`

Basic SEO Practices

- One `<h1>` per page — **clear content hierarchy**
- Use landmark tags, not `<div>` — **machine-readable structure**
- `<title>` + `<meta name="description">` — **search-result text**
- `<img alt="...">` — **describes image content**
